

Guidelines for Community Art Share

- Please plan on bringing one artwork to share with the group. We do not normally have time in the 2 hour event to do two pieces of artwork.
- We will have tables and easels to display your work.
- The facilitator will supply a few reflective questions to help you prepare to talk about your work; however, our process starts with a thinking strategy moment where the facilitator will ask the group what they see first. This is highly important to allow the group to describe what they see. You will be able to learn how others approach artwork.
- Then we provide time for each artist to speak about their work.
- Please be punctual
